REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the primary reason for the indication of the allowability of the claimed invention is the inclusion of the limitations, in the combination as currently claimed, that the claimed image forming includes an optical fiber for establishing a bi-directional communication, a transmission device connected to the optical fiber for sending optical signals over the optical fiber, an optical scanning device connected to the optical fiber for scanning an optical beam emitted from an exit end of the optical fiber, and a synchronizing device also connected to the optical fiber to detect the optical beam in a detection area and to transmit the detected optical beam over the optical fiber. The prior arts made of record, considered alone or in combination, fail to teach or fairly suggest the provision of an optical fiber through which a bi-directional communication is established between the transmitting device and the set of the optical scanning device and the synchronizing device for sending optical signals relevant to the printing operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
